Synopsis

Simon holds an Honours Degree in Civil Engineering from Plymouth University and is a UK 'Chartered' Engineer with some 30 years of professional experience. He has worked for consultant, client and contractor organisations. As an independent, he has been involved internationally in claims and dispute avoidance, amicable dispute resolution, DABs and arbitration procedures, and the provision of contract & claims advice to clients (including the EU, EBRD and KfW), consultants and contractors. He is particularly adept at facilitating and providing contractual solutions.

He has also provided expert input for procurement, tendering, contracting, claims and adjudication aspects of major projects, including defining and implementing procurement strategy, pre-qualification and tender document preparation, tender evaluation and reporting, award recommendation, contract negotiation and award, construction supervision and supervision-in-chief responsibilities during construction and defects liability period, acting as the 'Engineer' on FIDIC Contracts.

Simon is a listed FIDIC accredited trainer and Senior Consultant to a FIDIC-approved/accredited training company for whom he is a course tutor/trainer lecturing internationally on the FIDIC 1999 suite of contracts. He was the Task Group Leader of the FIDIC Updates Task Group (TG6B) for the preparation of the 2nd Edition of the 1999 FIDIC Conditions of Contract for Construction (Red Book) and Conditions of Contract for EPC/Turnkey Projects (Silver Book). He is also a member of the FIDIC Task Group (TG9) for the preparation of the new Conditions of Sub-Contract for Plant and Design Build and for EPC/Turnkey. He is a presenter at the residential Construction Law Summer School held at Cambridge University, UK since 2012 and he is a regular speaker on behalf of FIDIC at FIDIC International Users' Conferences worldwide on a variety of subjects such as 'The 1999 Conditions of Contract for Design & Plant Build' and 'The Role of the Engineer'.

Prior to founding his own company, he held the positions of Vice President, Regional Director, Project Director and Project Manager for major international consultants specializing in planning and procurement, design, tendering, construction supervision & management of FIDIC (& other) Contracts for water supply, sewerage & wastewater treatment, marine, highway & structural work in the UK and internationally, including some 20 years internationally on predominantly IFI-funded projects.

Simon has international experience in the following countries: Albania, Bulgaria, Croatia, Czech Republic, Haiti, Hungary, India, Indonesia, Jordan, Kosovo, Latvia, Macedonia, Malta, Montenegro, Mozambique, Nigeria, Palestine, Papua New Guinea, Poland, Qatar, Romania, Russia, Saudi Arabia, Slovakia, St Lucia, Thailand, Trinidad, Turkey, Uganda and Vietnam.
